PNT 9700 The key to making electronic scales simple.

The First Truly Self-Diagnostic Indicator with On-Screen Programming
Display Truck, Trailer and Total weights at the same time

Designed for flexibility, the PNT 9700 Digital Weight Indicator is the latest technology in on-board scale electronics for the trucking industry. It can be easily modified to meet the needs of changing system requirements.

The five user soft keys allow you to produce functions that are unique to your application.

The 9700 two channel indicator is designed for versatility. The 9700 can easily be programmed for long loggers or short loggers. The PNT 9700 is extremely reliable and easy to operate.

- Two channel models for long and short loggers, B-trains and chip trailers.
- Super-Bright, .6" high, red, seven segment LED display.
- Two-wire, non-polarity sensitive, digital technology provides ultimate reliability.
- An *Advanced Calibration* function for calibrating the scale without a load.
- Quick switching from GROSS to NET and quick EMPTY WEIGHT RESET.
- Capable of monitoring individual load cell outputs.
- *Weight-to-go* feature which instantaneously (instantly) shows how much weight must be loaded to reach maximum legal payload.
- Compatible with all models of On-board scale load cells and sensors.
- **100% Compatible with 9100GW.**

Complete Conversion Kit:

(1) PNT 9700 Meter
(2) PNT 7042 Transmitter
(1) 216-80, 80ft Trailer Cable
(1) 216-35, 35ft Truck Cable
(1) 218-15, 15ft Power Cable
